

Measure the size of each parts for the sealing pin

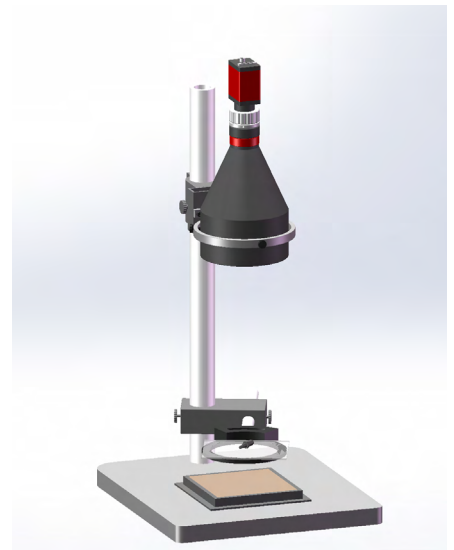

Application: Measure the size of each parts for the sealing pin

NEW TRY Products: Telecentric lens: VCM118-80
Illumination: ordinary backlight

- C Mount Bi telecentricity;
- <0.1% distortion;
- High resolution with clear image;
- Perfectly measure the size of each parts for the sealing pin.

Camera: 5MP AVT, 2/3", 3.45 μm (Sensor: 7.16mm x 5.44 mm)

- Resolution (H x V) 2448x2050px

Test conclusion:

- Ideal for measure the size of each parts for the sealing pin
- Accuracy: Depending on different cameras resolution and image areas 63.4mm*48.1mm <0.03 mm with 2448x2050 pixels
- Performance: Clear image, nearly 0 distortion.
- Test image: Achieved image with high definition and great uniformity.
