

Measure the size of metal pin

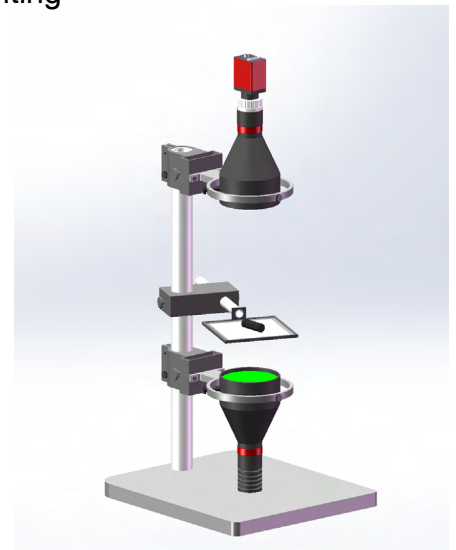

Application: Measure the size of metal pin

NEW TRY Products: Telecentric lens: VCM230-64
Illumination: VCL-64 parallel telecentric lighting

- C Mount telecentricity;
- <0.1% distortion;
- High resolution with clear image;
- Perfectly measure the size of metal pin.

Camera: 5MP AVT, 2/3", 3.45 μm (Sensor: 8.47mm x 7.1 mm)

- Resolution (H x V) 2448x2050px

Test conclusion:

- Ideal for measure the size of metal pin
- Accuracy: Depending on different cameras resolution and image areas.
47.6mm*39.9mm <0.019 mm with 2448x2050 pixels
- Performance: Clear image, nearly 0 distortion.
- Test image: Achieved image with high definition and great uniformity.
